PRESENTATION

We go on with the publication of echoes established by the preceding International College of the Guarantee (ICG), but with the idea of being as brief as possible, like Heraclitus' lightning – as for Félix Fénéon, three lines would be our ideal.

We commence a new period of the work (2018-2020) of the International College of the Guarantee. We have nothing to add, except that we are still organizing ourselves. Two secretariats have been elected: Elisabete Thamer for Europe and Beatriz Maya for the Americas.

ON THE CARTELS

As regards the cartels, we retain the two types that the most recent ICGs adopted: punctual cartels for the reception of testimonies and permanent cartels that would articulate the experience and reflections on *the crucial problems*.

1. The cartels of the pass

Three cartels have been constituted, chosen by drawing lots and with due consideration of languages and incompatibilities as established by our rules (see *Echoes* N° 13).

2. The cartels of the ICG

These have been constituted by mutual election and their composition is as follows:

¹ Heraclitus, Fr. 64: 'Lightning steers the universe'. Quoted by Lacan, "About the experience of the pass", Congrès de la Grande Motte, in *Ornicar?* 12/13, Paris, Navarin, 1973, p. 121.

2.1. Cartel N° 1

Plus-one: François Terral

2.2. Cartel N° 2

Plus-one: Vicky Estevez

2.3. Cartel N° 3
