THE ETHICS OF PSYCHOANALYSIS AND THE OTHERS

**Dear Colleagues of the IF-EPFCL,**

We wish you an excellent 2026 !

We have started the year with determination, motivated by the challenges that await us in the organization of the XIII<sup>th</sup> International Rendez-vous of the IF-EPFCL, which will be held from July 23rd to July 26th in the city of São Paulo, Brazil.

We have now received the proposals for interventions and we will soon inform you of our responses.

This message is to let you know that the Scientific Committee has decided to organize two international preparatory activities for the upcoming RV. They will take place on March 15th and June 7th, 2026. These activities will occur online and will benefit from simultaneous translation in five languages: Portuguese, Spanish, Italian, French, and English. Each meeting will include the participation of four of the eight members of the Scientific Committee, which will allow us to cover the eight linguistic zones of our community.

Here is the program:
